

Ready to connect with
people committed to
preparing students for
21st century jobs?

Start here.

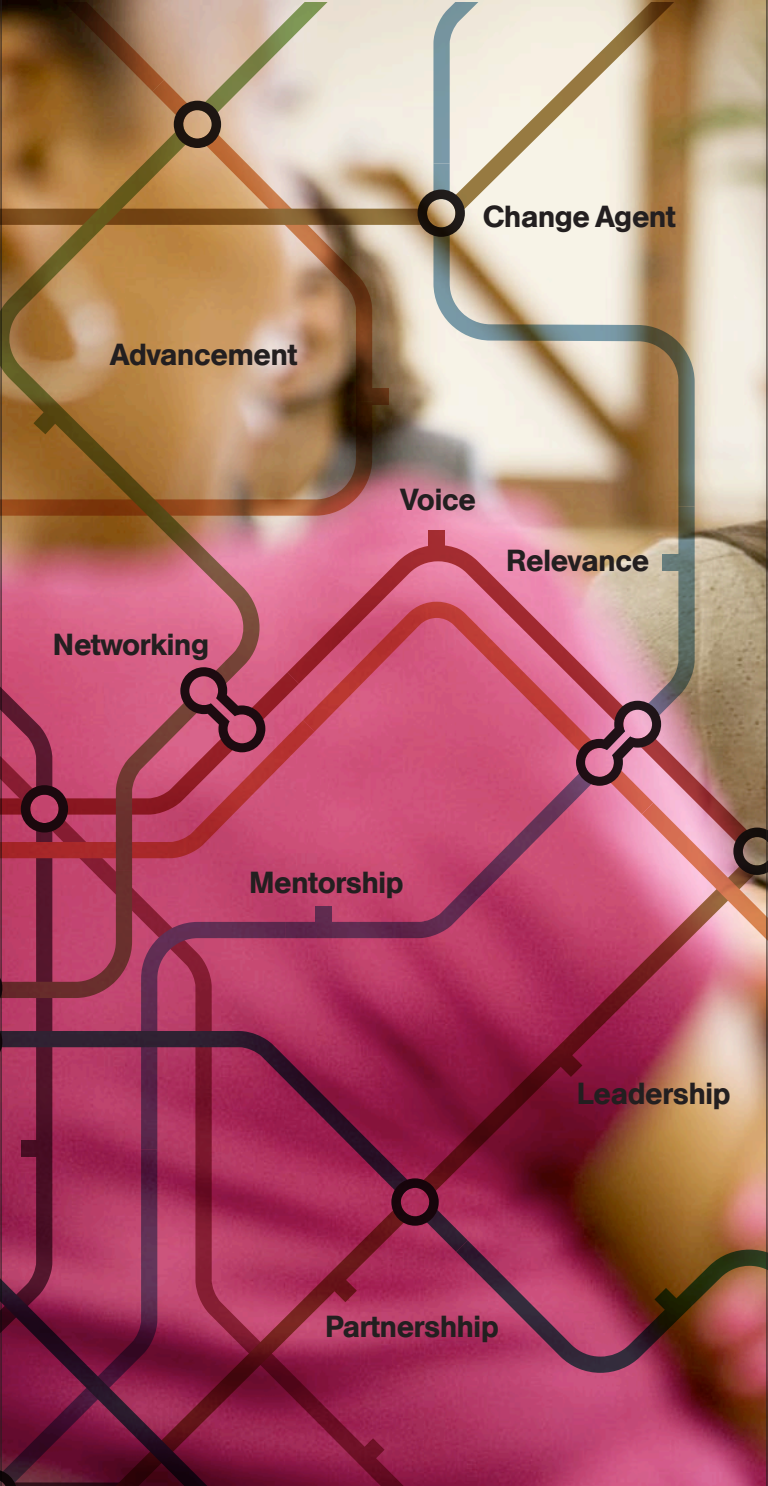

Join the Career and Technology Association of Texas (CTAT), the leading advocate for career and technical education in Texas.

Join hundreds of like-minded professionals whose unified voice is shaping the future of career and technical education.

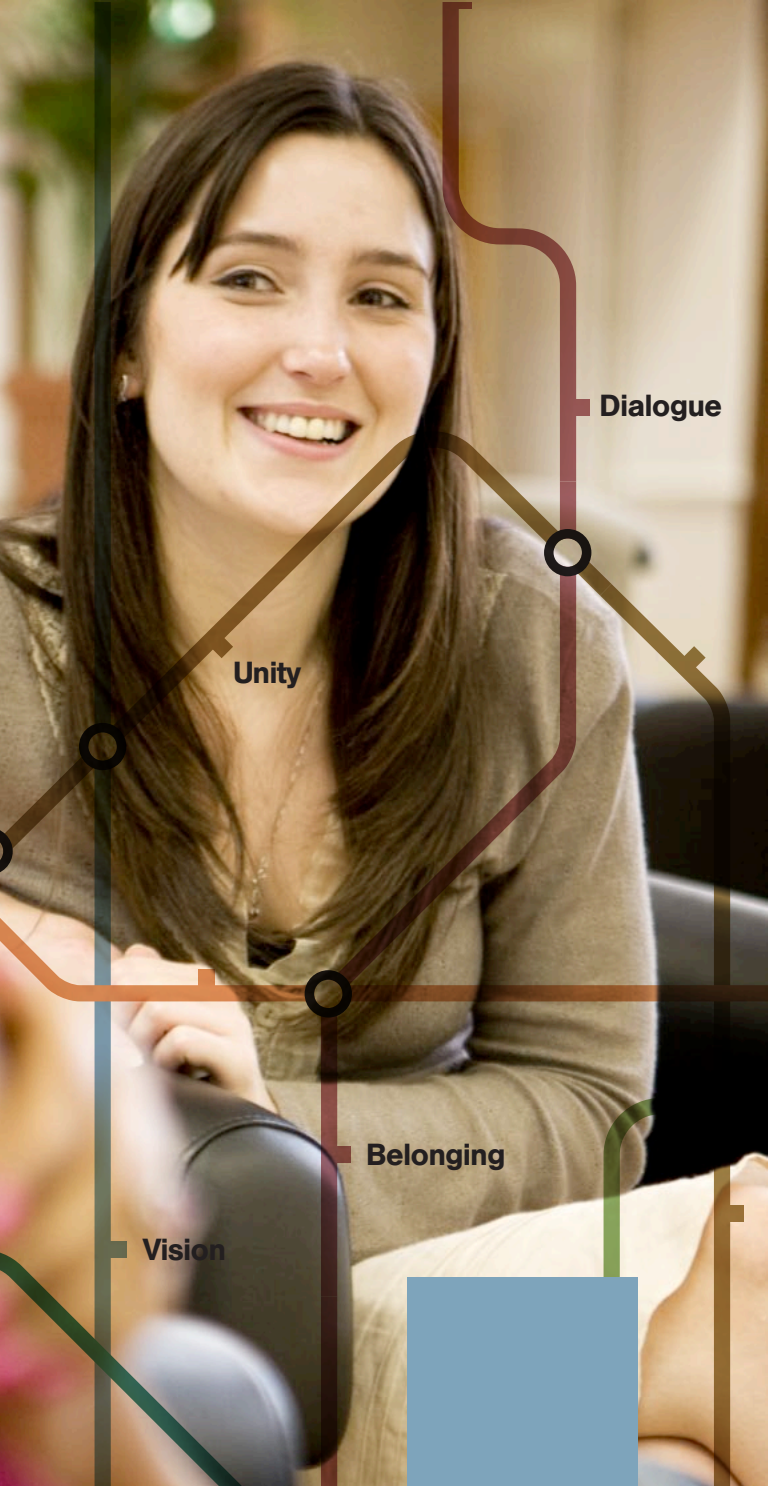

Today's economic environment underscores the importance for career and technical education (CTE) to develop an educated, prepared, adaptable and competitive workforce. Meeting this need requires rigorous academic and workbased learning programs, instructional partnerships with business and industry, and public awareness that CTE is no longer vocational training but a wide range of career opportunities. It also requires the political clout of a united organization of committed professionals like you.

The rewards of membership are numerous. Our members have described our seminars as thought-provoking and professional. They've said our legislative updates provide knowledge that strengthens their roles. And they count as friends and mentors people they have met within the extended network of education professionals.

Join CTAT and you'll have access to resources that will allow you to learn, share, grow and engage in ways that will make a tangible difference in CTE on a campus, district, regional and statewide level.

*"Visionary and inclusive leadership permeates this organization... state and regional support for CTE programs to ensure the future...
— Lindle Grigsby, Dean of Workforce and Economic Development"*

Advocacy and Awareness

A trusted advocate, CTAT serves as your voice in state policy decisions and educates other audiences about the importance of career and technical education. Members are the first to know about issues and participate in the advocacy process.

Professional Development

Conferences offer in-depth sessions to help you expand quality programs and partnerships, learn about regulatory changes and discover what colleagues are doing around the state. CTAT is also unified with ACTE.

Resources

Access research, policy information, instructional and management resources. The award-winning *Techniques* magazine is published eight times a year and provides a wealth of useful information including case studies and classroom tools.

Recognition for Excellence

Over \$10,000 in scholarships are awarded annually for students to continue their education in college. Aligned with ACTE's award program, educators, business and civic leaders are recognized for contributions that exemplify high standards.

Peace of Mind

Full membership provides you with \$25,000 for common carrier accidental death and dismemberment insurance within the first year of membership through Forrest T. Jones Insurance. The policy increases by \$5,000 annually with continuous renewal of membership. You also have access to affordable insurance options, including liability; identify theft and others.

I want to be a change agent.

CTAT can help. Join the vast and dynamic network of professionals making a difference in career and technical education programs in districts and colleges of all sizes in all regions of Texas. Not only will you enrich your career, you'll help create a better educational experience for our students.

Download and complete your membership application. It's just that easy.
